

Photography and the use of Images Willow Nursery School

There are several occasions during the school year when photographs of the children are taken.

- Once or twice during the school year, a professional photographer visits the school to take pictures of the children. About two to three weeks after having the photos taken, proofs are sent home with the children and parents can decide whether or not to buy them and/or order further copies.
- As part of their ongoing celebration of children's work, staff often take and use photos of the children to enhance the displays.
- With regard to the school's website, we do not publish children's photographs.

Within the New Starter form, all parents are asked to indicate whether they grant their consent for photographs or videos (of their child) to be used for display in school.
